

## Train 4 This

Tyga

And you didn't train for this, you can't fight it  
You know you came for this  
And you know who's thing this is, better say it then  
You know you came for this  
And you didn't train for this, you can't fight it  
You know you came for this  
And you know who I'm top five, champion level, I major list  
You know you came for this

And you know I brought so much, pleasure, pain came with it  
Bit you know I'm made for this  
And you know being this way is what made me rich, can't make things switch now  
If I can make it hit, I can take a hit, yeah

But you didn't train for this, you can't fight it  
You know you came for this  
And you know who's thing this is, better say it then  
You know you came for this

You see me on Shade Room, famous, it's dangerous  
You know how crazy fake it get, I know how crazy my baby get  
But you didn't train for this, broke down and prayed for this  
I'm having my way with this, in a big Jeep wagon, to the bank with this  
And you didn't, yeah, train for this  
You hopped on a train for this  
You whip lanes and lane for this  
'Cause you know who I'm top flight, champion level, all day with this  
And you can't stay away from this

And you didn't train for this, you can't fight it  
You know you came for this  
And you know who's thing this is, better say it then  
You know you came for this, you know you can't resist  
And you didn't train for this, you can't fight it  
You know you came for this, you know, you know  
And you know who I'm top five, champion level, I major list  
And you know you can't forget, and you know you can't forget

Now I know what you think  
I know when you drink, you more aggressive with your expression  
Let me know what you need, I think I know a recipe to think there's an extra me, yeah

If you didn't train for this, you can't fight it  
You on fire, I ignite it  
I advise it, yeah, but you invited  
I know you like it, it's like I'm psychic  
I know you not my side bitch, no, you my sidekick, oh, oh  
I know you Robin, I know, I know, I know you Robin  
The way it fit, like God designed it  
The way I stick and move, stick and move, Mike Tyson, oh

You didn't train for this, you can't fight it  
You know you came for this, you know, you know  
And you know who I'm top five, champion level, I major list  
You know you came for this
