

# Wait For A Minute

Tyga

Wait just a minute  
Can you wait just a minute?

Baby girl just a minute  
Wait just a minute, just wait just a minute

Well if you walk with me  
Well if you take my hand babe  
We can go to a place you ain't never seen before

Slow dance in the moonlight  
I'm just tryna set the mood right  
I'm just doing what I do  
Do it over and over and over

Quickily wanna run with me now  
Swiftly just come with me now  
Footsteps go to the beat now  
Over and over and over

It's just the way that, the way that  
The way that you do it, babe  
Oh I can say that, say that, say that  
I behave, but I'd be lying babe  
Let's run away for a minute  
Away for a minute babe  
Let's run away for a minute  
Play for a minute babe

Hold up, I don't need no love  
I said that with a straight face, baby that's poker  
Feel a lil sober, got it mixed in my soda  
I clean up good, aropa, dopa  
Baby I'm the shit but that's a good odor  
I'm a young star but my money look Yoda  
Crib on the ocean, backyard boat shit  
You hating on the internet, I couldn't even notice  
Tickets no service, we at the top working  
Pop-pops is lurking, told her "don't get nervous"  
I don't swerve Suburbans, this a gold derby  
Ferarri's and horses, I snap like tourist  
No rug, I floor it, girl, come feel important  
I'm all about a dollar, babe, banks call me Georgi  
9-5 Rollie, 96 Kobe, tonight we gon' ball like Ginobili  
You know me, I'm just tryna...

Slow dance in the moonlight  
I'm just tryna set the mood right  
I'm just doing what I do  
Do it over and over and over

Quickily wanna run with me now  
Swiftly just come with me now  
Footsteps go to the beat now  
Over and over and over

It's just the way that, the way that

The way that you do it, babe  
Oh I can say that, say that, say that  
I behave, but I'd be lying babe  
Let's run away for a minute  
Away for a minute babe  
Let's run away for a minute  
Play for a minute babe
