

Odd Well Done

Odd Well Done

Fuckin Ric Flair leglock

Headshot, body cropped

Make his fuckin mama watch

Squeeze your baby inside a fuckin

Baby bottle pop. Risky top

Running through your blood til your kidneys pop

Pillow-talk, leave your lips on top of your pillowtop

Pop you while your roof off

On top of a rooftop. Oswald, Mankind

All you niggas getting soaked

Loto Wap rock it til your burger leave the lettuce out

Check this out, no one around

Put your face into my crotch

Give a lick, lollipop, frog-tongue on my cock

Odd Well Done

Odd Well Done

There's dead mammals in my living room

Louis minks, foxtails, dooper than a metal spoon

Ay fool, split your enchilada, now its wormfood

Moving like worms move

Burn you like perms do

One two, leader of the Rat Pack tat crew

Hat's removed, when I walk in room

Make her eyes twitch

Juke ya, cut your shit out like a coupon

In due time, reign of a new king

Well Done
