

## Art of Noise

**Tygers of Pan Tang**

Smashed to the ground like dogs we crawl to the wall  
Searching for goals we follow the voice of our soul  
Burning the candles all night we never get away from it all  
Tonight is the night we'll prove who's right and who's wrong

Let's turn up the sound and gather around  
To hear... The art of noise

Thunder and lights ignite the fuel for the night  
The crowd gets so wild as they spot their heroes alive  
The joy and the sweat of this night will forever be there  
Stuck in their minds as they shout their anthems in the air

Let's turn up the sound and gather around  
To hear... The art of noise

Speaks are electric and bright as the adrenalin flows  
The magnets are ready to fight to hear their call  
Eye to eye they stand it's time band and the crowd  
Their vows echo tonight as they shout them out loud

Let's turn up the sound and gather around  
To hear... The art of noise

Time will prove to all  
The louder you get the better we roar  
Time will prove to all  
When rock comes alive we'll never fall
