

## Don't Stop By

Tygers of Pan Tang

Shadows in an empty house  
Ain't no relief in tears,  
Been days since you left  
Seems like years  
I can't stand loneliness  
The radio sings my song  
I cannot accept  
That you're really gone

Don't stop by, she's not at home  
Don't stop by, I'm on my own.

The darkness comes so fast  
Reminds me of the past  
It's hard to sleep alone  
How long will this last  
I see your face everywhere  
It's there, then disappears  
Only my imagination  
You're nowhere near

Your silk and satin dreams  
Clouded out my sanity  
Why has the feeling gone  
When our love was strong  
I've lost my count of time  
Can't understand my mind  
Love doesn't linger in my life
