## **Tygers of Pan Tang**

## **Don't Stop By**

Shadows in an empty house Ain't no relief in tears, Been days since you left Seems like years I can't stand loneliness The radio sings my song I cannot accept That you're really gone

Don't stop by, she's not at home Don't stop by, I'm on my own.

The darkness comes so fast Reminds me of the past It's hard to sleep alone How long will this last I see your face everywhere It's there, then disappears Only my imagination You're nowhere near

Your silk and satin dreams Clouded out my sanity Why has the feeling gone When our love was strong I've lost my count of time Can't understand my mind Love doesn't linger in my life
