

## Words Cut Like Knives

Tygers of Pan Tang

I know it's time, time to think about it... It hurts so bad  
You'll try to stop, but you stop my sighing  
Let me cry out loud 'cause you always knew that

Words cut like knives  
They leave you bleeding as the days go passing by  
Words cut like knives and they leave you breathless and alone i  
n the night

You know I'm right, we can't be together we tried so hard  
A twist of fate has got us together  
But reality bites and I always knew that

Words cut like knives  
They leave you bleeding as the days go passing by  
Words cut like knives and they leave you breathless and alone i  
n the night

Alone in the night... Alone in the night... I can't stop bleedi  
ng  
Words cut like knives

I hope someday we'll find a way to meet and laugh about it  
But here i am a lonely man who still believe you're worth it  
Though hope has gone love remains and I just can't fight  
It just turn the page, give yourself a chance leave the past be  
hind you
