

Mm-oh

Move on to find yourself, it's time to let it go
So blinding in my eyes, the pain I'll never show
Move on to find yourself, it's time to let it go
So blinding in my eyes, the pain I'll never show

I've taken my own life a thousand times
I've taken my own life a thousand times
Hard to shake the feeling when you love somebody
I can't feel my soul, it's like it's left my body
I've taken my own life a thousand times

Felt so wrong, I could see you're sorry
That's why I never fuck with nobody
Diamond game strong, but the others wanna copy
If you want smoke, I know this shit can get foggy

Felt so wrong, I could see you're sorry
That's why I never fuck with nobody
Diamond game strong, but the others wanna copy
If you want smoke, I know this shit can get foggy

I've taken my own life a thousand times
I've taken my own life a thousand times
Hard to shake the feeling when you love somebody
I can't feel my soul, it's like it's left my body
I've taken my own life a thousand times
