Tyla Yaweh

O-oh, yeah yeah, yeah  
Hector Soundz  
Yeah, yeah

Switching up her role, such a Gemini  
Can't make up her mind, like a Gemini  
She stay on the road, take off in the night  
Always a surprise, such a Gemini  
Never tell her no, when she catch a vibe  
She go side to side, like a Gemini  
Show up to my show, she don't stand in line  
Always stayin' high, that's my Gemini, Gemini

She got a lotta love to give away  
"Need you here with me" is what she say  
She don't wanna go out her way  
I don't really mind anyways  
I'm on the west side and I'm  
Ready for the ride of my life  
So I'm coming out your way

Touching on her then she wanna put my hands away, yeah  
She the type to keep me on my toes  
One moment she up and then she low  
I heat her up and then she actin' cold  
But she already know

Switching up her role, such a Gemini  
Can't make up her mind, like a Gemini  
She stay on the road, take off in the night  
Always a surprise, such a Gemini  
Never tell her no, when she catch a vibe  
She go side to side, like a Gemini  
Show up to my show, she don't stand in line  
Always stayin' high, that's my Gemini, Gemini

She tell me time to time that she ain't crazy  
But the way she actin' now lookin' hazy  
And when we in the bed she never lazy  
She keep it real smart, real brainy  
I put it on her right and I  
Do it how she like every night  
So I'm headed to her place

Touching on her then she wanna put my hands away, yeah  
She the type to keep me on my toes  
One moment she up and then she low  
I heat her up and then she actin' cold  
But she already know

Switching up her role, such a Gemini  
Can't make up her mind, like a Gemini  
She stay on the road, take off in the night  
Always a surprise, such a Gemini  
Never tell her no, when she catch a vibe  
She go side to side, like a Gemini  
Show up to my show, she don't stand in line

Always stayin' high, that's my Gemini, Gemini
