

Up In Flames

Tyla Yaweh

Better not wait around for it
Try to pave the way, but I made it my destiny
Better off savin' my pride
Holdin' my breath, can't expect you to wait for me

Look at my eyes, burning inside
Too many lies, gotta move cautious
Look at my eyes, burning inside
Too many lies, makin' me nauseous

Every night, all the time, ridin' with you
Camera lights, bougie nights, superficial
Desert Eagle, .45, custom issue
Did it right, now my life is presidential

Takin' what's mine, the sky is up in flames
It's burning 'til it's gone
Could've been mine, you tried and missed that train
And swallowed up in the fog
Takin' what's mine, the sky is up in flames
Up in, up in flames
Could've been mine, you tried and missed that train
Missed that, missed that train

You're stuck, it ain't my fault
Gotta clear my mind just to make the right move (Yeah)
I thought we had something special
Got so much potential in you
I don't wanna have sex with you since I'm livin' my life (Yeah)
Keepin' me the real high, with me nonstop
I'ma go miles high, we was at the top (Yeah)
Tradin' in a nine-to-five, now it's on
Hurdle way too many roadblocks, but I couldn't fold

Every night, all the time, ridin' with you
Camera lights, bougie nights, superficial
Desert Eagle, .45, custom issue
Did it right, now my life is presidential

Takin' what's mine, the sky is up in flames
It's burning 'til it's gone
Could've been mine, you tried and missed that train
And swallowed up in the fog
Takin' what's mine, the sky is up in flames
Up in, up in flames
Could've been mine, you tried and missed that train
Missed that, missed that train

Swallowed up in the fog
Swallowed up in the fog
