

# BLISS

Tyla

I don't wanna be in the world without you  
Baby, I don't wanna let you out my sight  
I don't wanna  
I don't wanna ever break away from you or the light might go away  
I need you in my life  
Let my smile bring you peace of mind

Burning desire when you  
Throw your arms all around me  
Need to feel all your passion  
You and I create magic  
I discovered wholeness  
When you looked me in my eyes  
I see further than hindsight

Take me out my mind, oh, oh  
Take me out my mind, oh, oh

You take me to bliss  
Never found a love like this  
Never found it, never found it  
You take me to bliss  
Never felt a love like this  
Never found it, never found it

Lovely paradise  
You're the Coke to my Hennessy  
Every turn leads you back to me

Burning desire when you  
Throw your arms all around me  
Need to feel all your passion  
You and I create magic  
I discovered wholeness  
When you looked me in my eyes  
I see further than hindsight

Take me out my mind, oh, oh  
Take me out my mind, oh, oh

You take me to bliss  
Never found a love like this  
Never found it, never found it  
You take me to bliss  
Never felt a love like this  
Never found it, never found it

Lovely paradise

(You take me to bliss) I don't wanna be in the world without you  
(Never found a love like this) Baby, I don't wanna let you out my sight  
(Never found it, never found it, yeah) I don't wanna  
(You take me to bliss, never found a love like this) I don't wanna ever break away from you or the light might go away  
(Never found it, never found it) I need you in my life
