

# Breathe Me

Tyla

Inhale harder  
Wanna feel your heart beat louder

I know you been waiting to exhale  
Baby, when you face me I can tell, right?  
Can't hide from me

Don't talk too much, I know what you need  
Follow me, no need to follow your mind, or your heart  
Whoa  
Mouth-to-mouth when you're touching me  
Open up, baby, I'll fill ya lungs  
CPR

You don't need no air, you can just  
Breathe me  
Breathe me  
One breath ain't enough  
Breathe me

Inhale harder  
Wanna feel your heart beat louder  
Take you higher  
We can go where ya wanna, na-na  
You don't need no air, just  
Breathe me  
Breathe me

I can fill you inside out  
Can you feel me inside now?  
Can you even see right now?  
I'm a one-way trip  
This a two-way thing  
I make you feel free  
Do anything for me, ooh

Don't talk too much, I know what you need  
Follow me, no need to follow your mind, or your heart  
Whoa  
Mouth-to-mouth when you're touching me  
Open up, baby, I'll fill ya lungs  
CPR

You don't need no air, you can just  
Breathe me  
Breathe me  
One breath ain't enough  
Breathe me

Inhale harder  
Wanna feel your heart beat louder  
Take you higher  
We can go where ya wanna, na-na  
Baby, no, you don't need no air, just  
Breathe me

Inhale harder

Wanna feel your heart beat louder  
Take you higher  
We can go where ya wanna, na-na  
Inhale harder  
Wanna feel your heart beat louder  
Take you higher  
We can go where ya wanna, na-na

Inhale harder  
Wanna feel your heart beat louder  
Take you higher  
We can go where ya wanna, na-na  
Baby, no, you don't need no air, just  
Breathe me  
Breathe me
