

IS IT

Tyla

Is it the fucks that I don't give?
Is it the man that I don't miss?
Is the song why we get along?
Or am I coming on a little strong
Is it the way this dress unzips?
Is it the girls that I came with?
'Cause the more that they tell me don't
It's the more that it turn me on

I can't leave
I can't leave
Leave you alone with your eyes on me, no
I can't leave
I can't leave
Dancing alone don't look right on me, yeah
I can't leave
I can't leave
Leave you alone with your eyes on me, no
I can't leave
I can't leave
Dancing alone don't look right on me

Is it wrong
That I wanna get it right
Wanna get it right with you?
Is it wrong
That I wanna get it right
Wanna get it right?

Is it the cup when it leaves my lips?
That got me thinking things like this
Like what it's like when you take me home
And what it's like when you take it off
Is it the idea that I like?
Or do I really wanna make you mine?
Or do we leave it all on the floor?
Either way I need a little more

I can't leave
I can't leave
Leave you alone with your eyes on me, no
I can't leave
I can't leave
Dancing alone don't look right on me, yeah
I can't leave
I can't leave
Leave you alone with your eyes on me, no
I can't leave
I can't leave
Dancing alone don't look right on me

Is it wrong
That I wanna get it right
Wanna get it right with you?
Is it wrong
That I wanna get it right
Wanna get it right with you?

Is it wrong
That I wanna get it right
Wanna get it right with you?
Is it wrong
That I wanna get it right
Wanna get it right with you?
