

No.1

Tyla

It wasn't working
I pretended
Tried to finish
You wanna turn it all around
Dodging feelings
I'm too real to forget
I don't reason
No compromising

Okay, I'm leaving tonight
Okay, I'm good in my life
I gotta put me number one
No compromising
Free from your grip in the world
Feel like a million girl
I gotta put me number one

You don't give me nothing
Not begging you for something, something
Virtually wasted
Virtually tainted
But it's not worth it
You're not my safety
How dare you call me, babe, when you can't be trusted?
Holding me back, boy, when you make me exhausted
I won't do it
Time is up for you
I gotta prioritize
No more compromising me

Okay, I'm leaving tonight
Okay, I'm good in my life
I gotta put me number one
No compromising
Free from your grip in the world
Feel like a million girl
I gotta put me number one
No compromising

Okay, I'm leaving tonight
Okay, I'm good in my life
I gotta put me number one
No compromising
Free from your grip in the world
Feel like a million girl
I gotta put me number one
No compromising

No compromising
I gotta put me number one
