

Overdue

Tyla

Na na na na nah eh

Infatuated with the things you do
Don't have a single share of doubt in you
(Stam wasami) I'm ready for you (for you)
Your love confessions were long overdue

Love (shuponed) that if you only knew
That my heart would now just belong to you
Hope you feel the spark between us two
My heart (gets so) the angles back to you

So now I'm hiding
You can't be so excited
I'm undecided
I gotta hide it
Hope one day you'll find it
Our loving sense, ooooh

My love for you isn't something new
I dream about us being the perfect two
My heart goes with when you leave the room
Deeply in love and you don't have a clue

This love often only comes for a few
Have this feeling but dunno what to do
Never hoped that you're feeling it too
Baby I'm waiting for you to come through

For now I hide it
I can't be so excited
I wanna say it, oooh
I gotta hide it
Hope one day you'll find it
Love is diamonds, oooh

Uh nah nah nahhh
