

PUSH 2 START (REMIX)

Tyla

Life I'm living and giving thanks (Ayy)
Giving it all, the mission, the peace, the guns (Ayy, yeah-yeah, yeah-yeah-yeah, yeah-yeah-yeah)
The mobilization
Alongside Tyla (Oh)
Another world light up like fire

The way we move, uh, skin onto skin
No separation, need no conversation, nah, nah, nah
Uh, on everything
It's automatic, goin' zero to a hun-na-na (Right)
Ride, and wishin' the wheels would fall off
Time is tickin', it's takin' you too long
Right before I decide to go home

Act like you heard me
Only serve it up if you deserve me, yeah
Girl, my love is worth it
Press it up, gyal
Push to start (Pusha, pusha)
Act like you heard me
Only serve it up if you deserve me, yeah
Shake it up like an earthquake
Press it up, gyal
Push to start (Pusha, pusha)
(With a bang, bang, bang)

Mm, pushin' on my buttons with no hesitation ('Tation)
Gas me up, give me motivation ('Vation)
So tell me where we goin', pick a destination ('Nation)
Gas me up, give me motivation now ('Vation)
Pushin' on my buttons with no hesitation ('Tation)
Gas me up, give me motivation ('Vation)
So tell me where we goin', pick a destination ('Nation, Write us up)
Gas me up, give me motivation now (Nah)

Baby girl, I'm about to be honest
Others girls on this planet and that's just Johannesburg
That's my word if you ready, pan it
Not afraid, come, girl, come make it just like bird
Now make your wiggle little thing, now make your jiggle little thing
Move up your body and that thing, I am the king for your world
To the body when you bring it, just the sun rising
It is dantilizing, come make it silly, girl
My love, it don't got a limit, girl
So don't fucking left me, I don't deserve
You know I'm the one, make it sweetie, girl
Love it how you whine and spin it, girl
Duty whine

Come give me life, and I'll change yours
Who needs signs? I say, "Floor it"
On a high when we load it (Baby girl)
Girl, if you hold me, make me load it

Act like you heard me
Only serve it up if you deserve me, yeah

Girl, my love is worth it (Pusha, pusha)
Press it up, gyal
Push to start (I got you, girl, Pusha, pusha)
Act like you heard me
Only serve it up if you deserve me, yeah
Shake it up like an earthquake (Pusha, pusha)
Press it up, gyal
Push to start (Pusha, pusha)

Mm, pushin' on my buttons with no hesitation ('Tation, I'm gassed up)
Gas me up, give me motivation ('Vation)
So tell me where we goin', pick a destination ('Nation)
Gas me up, give me motivation now ('Vation, Right a wave now)
Pushin' on my buttons with no hesitation ('Tation)
Gas me up, give me motivation ('Vation)
So tell me where we goin', pick a destination ('Nation, Baby girl)
Gas me up, give me motivation now (Nah)

Give me life, I'll change yours
Who needs signs? I say, "Floor it"
On a high when we load it
Seize the moment ride a wave now, darling
