

## Try Losing One

Tyler Braden

It's hard to get a number  
It's hard to get that dance  
It's hard to talk a girl into ditching all her friends  
It's hard to get that first kiss  
It's hard to make one fall  
It's hard to get the courage up to give her dad a call  
And if all that ain't hard enough

Try losing one  
Try walking through the door of an empty house  
Try staring at the wall pouring whiskey out  
Try living with knowing that you let her down  
Try trying like hell not to think about  
That hurt in her eyes as she turned around  
If you think finding a girl you can't live without  
Is the hardest thing you've ever done  
Try losing one

It's hard to come home early  
When last call comes so late  
Pride is hard to swallow  
And sorry's hard to say  
And taking her for granted  
Is an easy thing to do  
And if you want to see the kind of hell  
A girl can put you through

Try losing one  
Try walking through the door of an empty house  
Try staring at the wall pouring whiskey out  
Try living with knowing that you let her down  
Try trying like hell not to think about  
That hurt in her eyes as she turned around  
If you think finding a girl you can't live without  
Is the hardest thing you've ever done  
Try losing one  
Try losing one

Try missing her every night  
Holding on, barely getting by  
A love like that it might be hard to find

But try losing one  
Try walking through the door of an empty house  
Try staring at the wall pouring whiskey out  
Try living with knowing that you let her down  
Try trying like hell not to think about  
That hurt in her eyes as she turned around  
If you think finding a girl you can't live without  
Is the hardest thing you've ever done  
Try losing one  
Try losing one
