

Focus

Tyler Carter

So help me God, I love the way you taste
Like honey suckles dripping off your lips
I miss you tangled in them Jersey sheets
I wanna hold you just a little closer

Don't got nowhere to be
Don't got nowhere to be
Consider me busy, busy, oh, yeah
Can't take my eyes off you
You get off on me, I go fast for you
And we getting dizzy, dizzy

That's why we need to slow down and focus
Hold on to this moment
Focus, focus, focus on you
Focus, focus, focus on you
If you need to know, I got you in focus
It's clear that I want this
Focus, focus, focus on you
Focus, focus, focus on you

So help me God, I love the way you feel
I'm spilling muscat down, right off my lips
Onto your body, so I kiss your thighs
That drives you crazy, so you getting closer, yeah

And out in the city, but never sleep
You'll be my company
And I'll keep you busy, yeah
Can't take my eyes off you
You get off of me, I go fast for you
And we getting dizzy, dizzy

That's why we need to slow down and focus
Hold on to this moment
Focus, focus, focus on you
Focus, focus, focus on you
If you need to know, I got you in focus
It's clear that I want this
Focus, focus, focus on you
Focus, focus, focus on you

That's why we need to slow down and focus
Hold on to this moment
Focus, focus, focus on you
Focus, focus, focus on you
If you need to know, I got you in focus
It's clear that I want this
Focus, focus, focus on you
Focus, focus, focus on you
