

Ooh, yeah, yeah
Baby love, baby love

Every day it fucking rains
I'm married to this marijuana
All the things I fail to do
All the things, I bury you
So now I'm coming out here
To the land of caviar and cocaine
We sippin' on some champagne
We focused on same thing

Bitch mean nothing
She just hold me, hopin'
She on a prowl, prowl
Out here hunting, always up to something
Can't see me from the clouds, clouds

How about some love?
How about some love?
How about some love?
How about some love?
How about some love?
How about some love?
I said, I said
How about some love?
How about some love?
How about some love?
How about some love?
How about some love?
How about some love?
How about some love?

Do you wanna come get high with me?
Taking off in the sky like MJ, I believe I can fly
I been great, ain't no news to my line so hit me up
Probably out in the valley to kitchens, I'm cooking up
Music is why I do it, the feeling it gives, it numbs
It heals, it hurts, it burns, it's real, it feels, it loves
Made me what I've become, youngin' from Cincinnati
Ohio state and the Buckeyes, had memories on that campus
Back to back we smoking, acid rolling
Seeing shit I never noticed, catapulting
Tryna level up
Man, I swear I need a foreign goddess, driving in a foreign
Foreign juggin' in a foreign party, I'm still here in California
Someone tryna be somebody, I keep getting closer, closer
Close enough to be somebody, every day I focus, focus
Faith is all I need to guide me, tell me if you rolling, rolling
All my problems put behind me

Bitch mean nothing
She just hold me, hopin'
She on a prowl, prowl
Out here hunting, always up to something
Can't see me from the clouds, clouds

How about some love?

How about some love?
How about some love?
How about some love?
How about some love?
How about some love?
I said, I said
How about some love?
How about some love?
How about some love?
How about some love?
How about some love?
How about some love?

But go away, we know
'Cause every ways we go
I have friends, yeah, yeah, yeah
New ways for sure
I'm trying to pay the roads and be the one, yeah, yeah, yeah
I leave it to you to say what you want
Damn if you do, damn if you don't
I know what I do, I know what I want

How about some love?
How about some love?
How about some love?
How about some love?
How about some love?
How about some love?
I said, I said
How about some love?
How about some love?
How about some love?
How about some love?
How about some love?
How about some love?
