

# Black Light

Tyler Glenn

Change is good when I touch him  
But I wish we would, we could start now  
Is it crazy that you're on my couch?  
Everything you're saying's what I'm saying  
Loving life and excommunication

I'll go and turn the lights  
I like them low at night  
I could tell you what I'm thinking  
I gotta tell you what I'm thinking

Oh, say that you're feeling what I'm feeling too  
Pray I don't play the way I used to  
Oh, something's taking over me  
You got me under the black light, baby

Stay, come and be my daily ritual  
Play, we'll break the rules like back in school  
I want you under, under, under me  
I want you under the black light, baby

Lose my mind  
Trouble seems to be a friend of mine  
Could we keep the faith?  
I really want to but I can't see straight  
Everything you say is what I'm saying  
Love and life and miscommunication

I'm ready for the real  
Man, life is so surreal  
I can tell you what I'm thinking  
I'm gonna tell you what I'm thinking

Oh, say that you're feeling what I'm feeling too  
Pray I don't play the way I used to  
Oh, something's taking over me  
You got me under the black light, baby

Oh stay, come and be my daily ritual  
Play, we'll break the rules like back in school  
I want you under, under, under me  
I want you under the black light, baby

Fortune favors the brave  
Thing are getting weird but I like it  
Please, please say I'm not insane  
Thing are getting weird but I like it  
Under the black light

Say that you're feeling what I'm feeling too  
Pray I don't play the way I used to  
Oh, something's taking over me  
You got me under the black light, baby

Stay, come and be my daily ritual  
Play, we'll break the rules like back in school  
I want you under, under, under me

I want you under the black light, baby

I want you, I want you [x8]
