

Gates

Tyler Glenn

Too many lights on me
There's way too, too many lights on me
And give me everything you got
I think I'm going to go get lost
Cause there's way too, too many lights

Imma kiss my love like I want to
Dancing in the dark like I used to
Does anybody wanna smoke in the back room?
I used to be somebody cool that your friends knew

Imma kiss my love like I want to
Gotta love him while I can like the great's do
We can make it through the night
It'll be cool, it'll be cool

I'll see you at the gates, I'll see you at the gates
Baby, we're just gonna live forever, baby, heaven's gonna stay
If it's true and I lost my way, if it's true and I lost my way then
I'll see you at the gates, Imma see you at the gates

I will see you at the gates (see you at)
I will see you at the gates (see you at)
I will see you at the gates (see you at)
I will see you at the gates (see you at)

There's too many lights on me, yeah
I never wanted so many eyes on me
We can meet up in a dream
I say we stop pretending, please
Cause there's way too, too many lights

Imma live my life like I want to
Hanging in the park like I used to
Does anybody have a song we can sway to?
We used to be somebody cool that our friends knew

Imma tell the truth like I can't choose
Gotta tell them while I can like the great's do
We can make it through the night if we keep our cool
If we keep our cool

I'll see you at the gates, I'll see you at the gates
Baby, we're just gonna live forever, baby, heaven's gonna stay
If it's true and I lost my way, if it's true and I lost my way then
I'll see you at the gates, Imma see you at the gates

I will see you at the gates (see you at)
I will see you at the gates (yeah)
I will see you at the gates (see you at)
I will see you at the gates

Take me to the coast, my makeup's on and I think I feel pretty
Keep me far away from Salt Lake City
It's you I love the most, so let's have a toast
A tango with the Father, Son, and Holy Ghost

I'll see you at the gates, I'll see you at the gates
Baby, we're just gonna live forever, baby, heaven's gonna stay
If it's true and I lost my way, if it's true and I lost my way then
I'll see you at the gates, Imma see you at the gates

I will see you at the gates (see you at)
I will see you at the gates (see you at)
I will see you at the gates (see you at)
I will see you at the gates (see you at)

I will see you at the gates (see you at)
I will see you at the gates (see you at)
I will see you at the gates (see you at)
I will see you at the gates
