

Waiting Around

Tyler Glenn

You're an old pro
Drama-rama like a talk show
Makes me wanna quit my day job
Lose my inhibition
Inhibition

Going solo
Man, I post too many photos
Jack and cherry Coca-cola
On my white t-shirt
Gone, lost religion
What religion?

Oh, you got me waiting around for your call
My faith is patient but it's hitting a wall
Swear on the book you're gonna miss me
Kiss me if we're not gonna talk

I'm always waiting around for your call
Show me a sign and I'll send you my love
You got me giving up on Jesus
Lost in places I don't wanna go
Waiting and waiting around for you

Vice and virtue
I got words that are gonna hurt you
I'm-a go and get the hell out of town
Go south, get caught for stealing
I need you near me

I need a new clue
Spill my guts out on my new shoes
I want you, but he will do what he do
When we're through he's up and leaving
Why did you leave me?

Oh, you got me waiting around for your call
My faith is patient but it's hitting a wall
Swear on the book you're gonna miss me
Kiss me if we're not gonna talk

I'm always waiting around for your call
Show me a sign, show me anything at all
You got me giving up on Jesus
Lost in places I don't wanna go
Waiting and waiting around for you

I'm a fool but I'm tired of being foolish
Reading up on history can mess with your head
Up at night, you and I went and died
Stone cold like the sheets in my bed

You got me waiting around for your call
My faith is patient but its hitting a wall
Swear on the book you're gonna miss me
Kiss me if we're not gonna talk

I'm always waiting around for your call
Show me a sign, give me anything at all
You got me giving up on Jesus
Lost in places I don't wanna go
Waiting and waiting around for you

(Always waiting around)
