

## Studio Chatter, Pt. 1

Tyler Hilton

Remember when you drew that heart on the back of my car in the dust that  
hat settled from that firefly drive down to the riverside  
That's a memory still burning in my mind after all this time even though  
the spring rains came and washed it dry  
I know that we're young, but I haven't felt that in so long

And I wanna be in love so bad  
I wanna find that thing that we had  
I wanna make it last forever, this time I ain't holding back  
I wanna be in love so bad  
Like Hepburn fell for Tracy, that starcrossed kinda crazy  
No one else can understand  
Yeah I wanna be in love so bad  
Yeah I wanna be in love so bad

Well this time I won't settle for anything less than firework kisses,  
and midnight making love  
All the things that my heart misses about us, and it's so tough cause  
everyone else seems to have it  
That cinematic movie magic, I wanna be happy for them but its tragic

'Cause I wanna be in love so bad  
I wanna find that thing that we had  
I wanna make it last forever, this time I'm not holding back  
I wanna be in love so bad  
Like Hepburn fell for Tracy, that starcrossed kinda crazy  
No one else can understand  
Yeah I wanna be in love so bad

I can dream, I won't quit  
I believe it exists  
I want passion, I want fire  
Undeniable desire  
Cause you showed me what it could be  
And I wanna be in love so bad  
And when it finally comes along  
This time I'll hold on

'Cause I wanna be in love so bad  
I wanna find that thing that we had  
I wanna make it last forever  
This time I'm not holding back  
I wanna be in love so bad  
Like Hepburn fell for Tracy, that starcrossed kinda crazy  
No one else can understand  
Yeah I wanna be in love so bad  
Yeah I wanna be in love so bad  
Yeah, Yeah I wanna be in love so bad  
Yeah I wanna be in love so bad.
