

# Tough

Tyler Hubbard

'Round here lately, it's been rough  
Too much heartbreak, not enough love  
And I've been doubtin' if I'll ever find myself again  
And I worry I won't ever be enough

Oooh, I've been searchin' for the truth  
And then I tell myself

Whatever don't kill you makes you tough  
Can't tap out when the times get rough  
I know it ain't easy, but the only way that we get stronger  
Is get a little burnt, yeah  
Take a little fall  
Hurts like hell when you're goin' through it all  
Get knocked down, but we get back up  
Whatever don't kill you makes you tough, tough  
Whatever don't kill you makes you tough, tough

(Aw yeah) I've been beat up black and blue  
I've been broke a time or two  
I've had nothin' left to lose  
But then my faith, it pulled me through  
No more searchin' for the truth  
And now I tell myself

Whatever don't kill you makes you tough  
Can't tap out when the times get rough  
I know it ain't easy, but the only way that we get stronger  
Is get a little burnt, yeah  
Take a little fall  
Hurts like hell when you're goin' through it all  
Get knocked down, but we get back up  
Whatever don't kill you makes you tough, tough  
Whatever don't kill you makes you tough, tough

We fall down, we get up  
It's how we do it where we from  
We got us, we got love  
We tough  
We fall down, we get up  
It's how we do it where we from  
We got us, we got love  
We tough

Whatever don't kill you makes you tough  
Can't tap out when the times get rough  
I know it ain't easy, but the only way that we get stronger  
Is get a little burnt, yeah  
Take a little fall  
Hurts like hell when you're goin' through it all  
Get knocked down, but we get back up  
Whatever don't kill you makes you tough, tough  
Whatever don't kill you makes you tough, tough

We tough, we tough, we tough
