

Radio

Tyler Rich

I heard our song again last night
It's like a one way ticket on a lonely ride
To your memory
Mama said son, it's gonna take some time
To forget her face when I hear those lines
And that melody

Sometimes, I sit here all day
Trying like hell to forget the pain
But I'm waiting for the same damn song to play

I wanna hold you close
Never wanna let you go
Every time I hear a song on the radio
Every time I hear a song I already know
I'm gonna call you up
Dead of the night
Praying somebody ain't there holding you tight
Only love I've ever known
Is still alive in this radio
Still alive in this radio

Tried to write a new song today
But every single word spelled out your name
Am I losing it?
Daddy said son, you better turn the page
Ain't no picture perfect in a broken frame
It's just foolishness

When I'm sitting here all night
And all day
Writing like hell just to kill the pain
And I'm singing that same damn song again

I wanna hold you close
Never wanna let you go
Every time I hear a song on the radio
Every time I hear a song I already know
I'm gonna call you up
Dead of the night
Praying somebody ain't there holding you tight
Only love I've ever known
Is still alive in this radio
Still alive, still alive in this radio

And I'm waiting for the same damn song to play

I wanna hold you close
Never wanna let you go
It's just all that same damn song
So play it all night long
I'm gonna call you up
Dead of the night
Praying somebody ain't there holding you tight
The only love I've ever known
Still alive in this radio

Still alive in this radio

I heard our song again tonight

It's like a one way ticket on a lonely ride

To your memory
