

## What Do I Know?

Tyler Rich

I know the look that you get when something's on your mind  
How you overthink every little thing trying to get it just right  
You wear a smile when you sleep at night  
Call your mom when you need to cry  
I never thought that I would be the reason why

I thought you knew how much I loved you  
Thought our love was a long and winded road  
It's more like a highway heartbreak song  
Playin' on the radio  
Thought I saw forever in your eyes  
Never thought I'd hear you say goodbye  
But you were already letting go  
Oh so what do I know...

Flippin' through pictures of you on my phone  
You know I try, but I can't find where it went wrong  
Without a trace, what happened to  
The life we had, the girl I knew  
The one I swore that I would never lose

I thought you knew how much I loved you  
Thought our love was a long and winded road  
It's more like a highway heartbreak song  
Playin' on the radio  
Thought I saw forever in your eyes  
Never thought I'd hear you say goodbye  
But you were already letting go  
Oh so what do I know...

I know nothing but a heartache baby  
I know you're leavin's gonna drive me crazy  
Yeah drive me crazy

I thought you knew how much I loved you  
Thought our love was a long and winded road  
It's more like a highway heartbreak song  
Playin' on the radio  
Thought I saw forever in your eyes  
Never thought I'd hear you say goodbye  
But you were already letting go  
You were already letting go  
Oh so what do I know...  
Yeah what do I know...  
So what do I know...
