

Confident

Tyler Shaw

I wish I could go to a party and not wanna leave
I wish I could look in the mirror and like who I see
I wish I could stop saying sorry even when I say something I mean
I wish I could just be the person I wanted to be

I get way too in my head sometimes
Only thing I know is I'm

Confident that I don't really feel like myself
Confident that I don't know when to shut my mouth
Confident that I don't have it all figured out
Confident that I'm not like everybody else
Confident that things aren't going just as I planned
Confident that I still don't know just who I am
Confident to say at least I'm trying my best
Confident to know that I ain't confident yet

I wish I could fall into love and not even think twice
I wish when I talked to somebody I looked in their eyes
Wish I didn't have to drink so much
Just to let myself have fun
Knowing I'm doing something right would sure be nice
But at least I'm

Confident that I don't really feel like myself
Confident that I don't know when to shut my mouth
Confident that I don't have it all figured out
Confident that I'm not like everybody else
Confident that things aren't going just as I planned
Confident that I still don't know just who I am
Confident to say at least I'm trying my best
Confident to know that I ain't confident yet

I get way too in my head sometimes
Can't get outta bed sometimes
The more I keep it all inside
The more I start to realize
That I'm...

Confident that I don't really feel like myself
Confident that I don't know when to shut my mouth
Confident that I don't have it all figured out
Confident that I'm not like everybody else
Confident that things aren't going just as I planned
Confident that I still don't know just who I am
Confident to say at least I'm trying my best
Confident to know that I ain't confident yet
