

# December

Tyler Shaw

I'm staring out the window  
To the snow that's falling down  
And you're underneath a blanket  
Waiting for me on the couch  
Our Christmas tree is sparkling  
In our cozy living room  
Got hot chocolate with some Baileys  
This evening's for me and you

Living a holiday  
Snowed in and that's okay  
Put a fake fire on the TV  
It's dark at 5 PM  
Feels like a long weekend  
Oh, oh, oh, oh, oh

D-D-D-December  
Only this time of the year  
(It feels like, It feels like, magic)  
Wanna remember  
All the memories we made here  
('Cause it's like, 'cause it's like, magic)  
Wanna live this again and again every time  
As long as we're together we'll be alright?  
Let's stay forever  
In this Christmas atmosphere  
('Cause it's like, 'cause it's like, magic)

Only in December  
(Yea we feel)  
Only in December  
(What is real)  
Only in December  
Only in December

Driving into downtown  
See the festive city lights,  
We'll skate along the river  
Then get cozy by the fire  
Ya the season it takes over  
It's like dancing on the moon  
(With you, you)  
Like the gift that keeps on giving  
I know that you love it to

Living' a holiday  
Snowed in and that's okay  
Put a fake fire on the TV  
It's dark at 5PM  
Feels like a long weekend  
Oh, oh, oh, oh, oh
