

# Driving

Tyler Shaw

You and me driving  
Hands in the center  
Talkin' bout' how far we've come  
Riding together  
If life is a highway  
Love is the weather  
One minute it's coming down so hard  
But then it gets better

Planets in the ocean  
Always in motion  
Sitting on the counter top  
Starin' and I can't stop  
Songs that never wanna die  
And movies always make me wanna cry  
Every note you try to sing  
It's a forever kind of thing  
My head can't keep up with my heart  
Ya, my blood keeps on rushing  
There's nothing like this

You and me driving  
Hands in the center  
Talkin' bout' how far we've come  
Riding together  
If life is a highway  
Love is the weather  
One minute it's coming down so hard  
But then it gets better

It's 2AM, let's hit the road  
Have an after hours antidote  
Wait until' the sun comes up  
Baby that's enough  
How you take my breath away  
Sends me to out the space  
Over and over again

You and me driving  
Hands in the center  
Talkin' bout' how far we've come  
Riding together  
If life is a highway  
Love is the weather  
One minute it's coming down so hard  
But then it gets better

Come on and run away  
I just wanna run away  
Come on and runaway  
Let's go another way  
Come on and runaway  
Let's you and me  
Drive away yeah

You and me driving  
Hands in the center

Talkin' bout' how far we've come  
Riding together  
If life is a highway  
Love is the weather  
One minute it's coming down so hard  
But then it gets better
