

Heaven

Tyler Shaw

Wish I could grab the sun and then give it to you
When it comes around
All the stars in the sky remind me that I'm a part of this too
So let's take this time

I believe
I believe
There's a reason we're all inspired
We're something bigger than wants desires
Oh oh
Let it be
Let it be
Cause all the love will be taking us higher

This is our piece of heaven
When you look close it's beautiful
This is our piece of heaven
When we're all searching for a miracle
Remember this is our piece of heaven

Let us swim with the waves, and we'll bathe in serenity
Oceans deep
Crystal clear in our minds without doubts and insecurities
Yea, it's a sign

I believe, I believe
We're something bigger than wants and desires
(Oh) Let it be, let it be
Cause all the love will be taking us higher

This is our piece of heaven
When you look close it's beautiful
This is our piece of heaven
When we're all searching for a miracle
Remember this is our piece of heaven

We're something bigger than wants and desires
And only love will be taking us higher

This is our piece of heaven
When you look close it's beautiful
This is our piece of heaven
When we're all searching for a miracle
Remember this is our piece of heaven
Heaven, heaven (this is our piece of heaven)
Heaven, heaven
Heaven, heaven
Heaven, heaven
