

Overthink

Tyler Shaw

Yeah, mmm

I haven't got to taste your lips
But trust me, I've imagined it now
Love the way your hair falls on your shoulder
Beauty and a perfect mix
A different type of opposite now
I love the way the light dances on your skin

Cause every second of you I don't wanna miss

So, come spend the night with me
I'm lost in your gravity
Just be who you wanna be
Don't overthink, don't overthink it
Come spend the night with me
I'm lost in your gravity
Just be who you wanna be
Don't overthink, don't overthink it

Thinking about my hands on your hips
Don't deny you know we fit, girl
I love the way you're painted on my body
Oh, you're scratching my back
Kissing my neck
The beat of our hearts intertwining

So, come spend the night with me
I'm lost in your gravity
Just be who you wanna be
Don't overthink, don't overthink it
Come spend the night with me
I'm lost in your gravity
Just be who you wanna be
Don't overthink, don't overthink it

Breathe with me in heavy beats
You and me is all we need
Melodies beneath the sheets

So, come spend the night with me
I'm lost in your gravity
Just be who you wanna be
Don't overthink, don't overthink, oh

Come spend the night with me
I'm lost in your gravity
Just be who you wanna be
Don't overthink, don't overthink it
Come spend the night with me
I'm lost in your gravity
Just be who you wanna be
Don't overthink, don't overthink it

Oh, oh, don't overthink, don't overthink it
Ah, don't overthink, don't overthink it
Hey, yeah, oh, oh, don't overthink, don't overthink it

Ooh, don't overthink, don't overthink it
