

Same as Me

Tyler Shaw

Walking through these streets in lonely hours
Welcome to the darkest place I know
Where every single dream I have, I question
I'm scared to head to where I wanna go

I've wasted all my time overthinking
What you think about me
What you think about me

You can call me a sinner
You can say I'm out my mind
You can call me a quitter
It's easy but you're just the same as me
You're just the same as me
You can call me a loser
You can say I've lost my shine
You can say you know better
It's easy but you're just the same as me
You're just the same as me

Maybe it's my fault for being hollow
Letting you fill every cell and bone
Maybe I'll be more myself tomorrow
Then again, maybe I won't

I've wasted all my time overthinking
What you think about me
What you think about me
And I'm breaking through the glass of your ceiling
No, you can't hold me

Oh, you can call me a sinner
You can say I'm out my mind
You can call me a quitter
It's easy but you're just the same as me
You're just the same as me
You can call me a loser
You can say I've lost my shine
You can say you know better
It's easy but you're just the same as me
You're just the same as me

Ooh, ooh, ooh
Walking through these streets in lonely hours
Welcome to the darkest place I know
