

Yesterday

Tyler Shaw

With the moon, hand in hand, head on my shoulder
We are, we are far from over
In the dark, with the stars, I leaned in closer
We are, we are far from over
Remember how it felt that night
When we broke in to paradise

You know if I, could have it any other way
I would take us back, take us back to yesterday
I'm gonna try, and try until my dying days
To take us back, take us back to yesterday

For a moment, all alone with you, couldn't get any better
We are, we are lost together
Gimme love, gimme hope, and I'll give you forever
We are, we are lost together
Remember how it felt that night
When we broke in to paradise

You know if I, could have it any other way
I would take us back, take us back to yesterday
I'm gonna try, and try until my dying days
To take us back, take us back to yesterday

I'll take us back to yesterday
Back, to yesterday
I'll take us back to yesterday

I'll take us back to yesterday
Back, to yesterday
I'll take us back to yesterday

I'll take you back to that night
We'll break back into paradise

You know if I, could have it any other way
I would take us back, take us back to yesterday
I'm gonna try, and try until my dying days
To take us back, take us back to yesterday

I'll take us back to yesterday
Back, to yesterday
I'll take us back to yesterday

I'll take us back to yesterday
Back, to yesterday
I'll take us back to yesterday

I'll take us back to yesterday, to yesterday
To yesterday
