

Always Into Something

Tynisha Keli

Uh
Let's do something a lil different
Uh, uh, uh
Whoa
We got a problem
She's coming
Whoo

We got a problem
She's coming
Okay
Introducing T-Keli
Uh

Once again
I'm sitting here explaining to you
I'm tired of you
Acting like a fool
Show up to my house unannounced
Tryna figure out what's going on?
Can't you get a clue?
No one is home
I'm sorry
You can't be the man that I need in my life

No more having to deal with
All the baggage you come with
I'll take the time out to say this
You're just not the one
So

Leave
Get your handcuffs off of me (off of me)
I thought you were here to make me happy (happy, yeah)
But you ain't doing nothing for me
(For me, oh, woo woo)
I got to tell you something
I need you to justify (I, I)
The reason you wasting my time (oh)
But you were good for nothing (always)
Always into something

I'm not gonna sympathize for you
You never came through
When I needed you
Forever had plans without me in
So I'm gonna take this time
For my girls and them (time for me)
I never thought I'd see the day
That we'd go on our separate ways
I can't believe
I'm sorry you can't be the man that I
I need in my life (oh)

No more having to deal with
All the baggage you come with
I'll take the time out to say this

You're just not the one
So

Leave
Get your handcuffs off of me (off of me)
I thought you were here to make me happy (happy, yeah)
But you ain't doing nothing for me
(For me, oh, woo woo)
I got to tell you something
I need you to justify (I, I)
The reason you wasting my time (oh)
But you were good for nothing (always)
Always into something
