

Favorite Broken Heart

Tynisha Keli

I was in my closet digging
Getting across some pictures
And a couple letters you wrote
Kinda had me reminiscent
Back when it was different
Right before you let me go
Cause even though we had to finish
Baby I admit it
It was worth my heart getting broke
Cause I ain't never had those feelings
I didn't get to say it
Last time we spoke

Even though it's goodbye
Before I run into you
I just wanted you to know
You're my favorite broken heart
Even though I cry
I don't wanna be fair
Imma always here for you
You're my favorite broken heart

So I ain't gotta bless your name in the streets
And tell everybody that I regret about you
And everything we went through
It's between me and you baby boy
We ain't gotta be the cliché
Exes with the "he say, she say"
Like we ain't grown
If you ain't got nobody these days
Maybe you can hit me on my cellphone

It's been so long since I saw you
But still I got nothing but love for you
Tell me that you know that I'll
Always be here whenever where ever, forever

Even though it's goodbye
Before I run into you
I just wanted you to know
You're my favorite broken heart
Even though I cry
I don't wanna be fair
Imma always here for you
You're my favorite broken heart

Thank you
If I could do it all again, I'd do
The very same thing knowing that you
Would hurt me in the end
Baby I would do it all again
Since I never knew
Love was for real until I met you
I know you'll be there whenever I need you
No matter, what I'm still your friend
I know it sounds crazy but

Even though it's goodbye
Before I run into you
I just wanted you to know
You're my favorite broken heart
Even though I cry
I don't wanna be fair
Imma always here for you
You're my favorite broken heart
