

# Left Your Side

Tynisha Keli

Yo...

I seem to find myself in the same position  
Make up, break up  
Tell me  
(I shouldve never left your side)  
Why?

Why are you wishing that you never left my side?  
When you left me all alone and now you realize.  
(I shouldve never left your side)  
Cuz i dont need you in my, No i dont want you in my life.

I Understand that what we had was somethin real  
Youll never find a new lover that makes you feel  
the way that I do  
but that was never enough  
no I was never enough for you  
spending you nights away from what you call a home  
lying awake late at night with noone to hold  
so what was I to do?  
Just stay and play a fool, pretend that things where Cool?

Things aint what they used to be  
when all you did was lie to me  
I was by your side you couldnt wait to leave  
but now that your without me its so hard to breathe  
tell me why...

Why are you wishing that you never left my side?  
When you left me all alone and now you realize.  
(I shouldve never left your side)  
That I dont need you in my, no I dont need you in my life.  
Cuz you hurt me for the very last time  
So you can sit and swallow every tear you cry so why  
(I shouldve never left your side)  
Cuz I dont need you in my, no I dont want you in my life.

Tired of hearing that Im always gon be yours  
Being in love shouldnt feel as if its a chore  
Sorry im not her  
She dont compare to my love, I know you miss my love for you  
Never let me come around when you was wit your friends  
feel like Im always gon be second to them, boy  
Im not gon wait for you to recognize the truth  
Already gave me proof, we're through

Now you wanna come back to me  
After all that shit you couldnt be  
Im anybody baby you just set me free  
But now that your without me its so hard to breathe  
Tell me why

Why are you wishing that you never left my side?  
When you left me all alone and now you realize.  
(I shouldve never left your side)  
That I dont need you in my, no I dont need you in my life.  
Cuz you hurt me for the very last time

So you can sit and swallow every tear you cry so why  
(I shouldve never left your side)  
Cuz I dont need you in my, no I dont want you in my life.

I, I, I, I dont want you in my  
I, I, I said I dont need you in my  
I, I, I said I dont want you in my  
Said I dont need you in my life life.

Why are you wishing that you never left my side?  
When you left me all alone and now you realize.  
(I shouldve never left your side)  
That I dont need you in my, no I dont need you in my life.  
Cuz you hurt me for the very last time  
So you can sit and swallow every tear you cry so why  
(I shouldve never left your side)  
Cuz I dont need you in my, no I dont want you in my life.

(I shouldve never left your side)  
oohh ohhh  
noo oohh ohhh  
(I shouldve never left your side)  
You shouldve never left my side
