

Let It Go

Tynisha Keli

I took down the pictures of you and me and I changed the locks
on my door
Don't wanna see your name on my phone when it rings and I don't
dream about you no more
(I can't believe) I held on for so long knowing that you moved
on
The only thing that's left for me to do is

Let it go, moving on
Feelings gone, I can see the light now
I'm free from all the pain that comes with loving you
Let it go, took control
Now I know, my future's starting right now
I finally closed that book
Forever's gone
It's over now

It broke my heart to watch you throw it all away
There was nothing I wanted more
Devastated, waited patiently, only to find I'm over it
Don't die without you no more
(Now I'm Free) From all the lies you told
Now that I'm on my own, I am so thankful it's the end of the ro
ad

Let it go, moving on
Feelings gone, I can see the light now
I'm free from all the pain that comes with loving you
Let it go, took control
Now I know, my future's starting right now
I finally closed that book
Forever's gone
It's over now

Let it go, moving on
Feelings gone, I can see the light now
I'm free from all the pain that comes with loving you
Let it go, took control
Now I know, my future's starting right now
I finally closed that book
Forever's gone
It's over now
