

Like Everybody Else

Tynisha Keli

Waiting for you, thinking maybe you could change
But you always find a way to let me down
And then you try to tell me why I should stay
When I would but I can't now

So we will see who's gon' be missing me
And I'll bet you you'll never find someone like me in time
I know for sure that we can't be no more
And I need a real love 'cause see, I've had enough

'Cause I'm not tryna be like everybody else oh, no
I'm not the one
Said I need me someone that's gonna treat me right
And you just ain't my type oh, no
Won't settle for less
I just won't settle for less

Now you calling, asking can we start it over
But we can't, no, let it go
I'm sorry but I got another someone in my plans
I can breathe again, found a better man

So you, be cool, hope you find someone
who can treat you the way I did
But I really doubt it, doubt it
I know, for sure that we can't be no more
I need a real love, you're gonna miss my love

'Cause I'm not tryna be like everybody else oh, no
I'm not the one
Said I need me someone that's gonna treat me right
And you just ain't my type oh, no
Won't settle for less
I just won't settle for less

You're gonna miss me
You're gonna wish we could've talked it out
You're gonna miss me
You're gonna wish we could've talked it out

'Cause I'm not tryna be like everybody else oh, no
I'm not the one
Said I need me someone that's gonna treat me right
And you just ain't my type oh, no
Won't settle for less
I just won't settle for less

'Cause I'm not tryna be like everybody else oh, no
I'm not the one
Said I need me someone that's gonna treat me right
And you just ain't my type oh, no
Won't settle for less
I just won't settle for less
