

Try Harder

Tynisha Keli

I'm looking in between the clouds
Looking to make a wish tonight
The only star that's in the sky is shining bright in the night

So, baby, all along I did it (Never was in vain)
Maybe there's a chance you and I can make it work again

I'm 'a play the hero, save whatever we got left
I take the blame for all of this, let me repair the damages

When my best ain't good enough, I'll try harder
I'm never gonna give you up. Why even bother?
Why don't you tell me to live through because I belong with you
?
So, when my... when my best ain't good enough, I'll try harder
for your love

I'm calling but you won't pick up
I'm leaving you messages 'til I can't
Can we just make it like it was?
Even though you don't think I'm listening
Baby, you gotta know that you are

The reason that I became the woman standing here today
I need you in my life or it's worthless
It'll just stay the same

I'm 'a play the hero, save whatever we got left
I take the blame for all of this

When my best ain't good enough, I'll try harder
I'm never gonna give you up. Why even bother?
Why don't you tell me to live through because I belong with you
?
So, when my... when my best ain't good enough, I'll try harder
for your love

When my best ain't good enough, I'll try harder
I'm never gonna give you up. Why even bother?
Why don't you tell me to live through because I belong with you
?
So, when my... when my best ain't good enough, I'll try harder
for your love
