

# Unbreakable

Tynisha Keli

Uh-oh  
Oh, yeah  
Unbreakable, yeah

Started out with little things you text me  
Talking on the phone till we both asleep  
I just wanna spend my life with you  
And show you how to make a dream come true  
I'll depend on anything you ask me  
Hold you down so you can let the past sleep  
Found me someone who was positive  
Came along and put the hurts a miss

It's unbreakable  
I'll never let it go  
One thing some people can't see at all  
It's unbreakable  
I'm so emotional  
Cause I know you'll catch me if I ever fall

It's unbreakable, uh-oh  
It's unbreakable, uh-oh  
It's unbreakable, uh-oh  
It's unbreakable, uh-oh  
I'm never gonna let you go

Well, you going high with me  
Just fell on with me fall speed  
You're the soldier I been waiting for  
Give me everything I need therefore  
I will do anything to protect your heart  
Can't take you away from your favorite stuff  
You're the pass for satisfaction, baby  
Got ya loving now your halfway crazy

This how love is supposed to be together  
Still together after our 10th anniversary  
It's forever and how long you say about me  
Here's how the story ends  
Happily ever after  
Here's how the story ends  
Happily ever after

It's unbreakable  
I'll never let it go  
One thing some people can't see at all  
It's unbreakable  
I'm so emotional  
Cause I know you'll catch me if I ever fall

It's unbreakable, uh-oh  
It's unbreakable, uh-oh  
It's unbreakable, uh-oh  
It's unbreakable, uh-oh  
I'm never gonna let you go

It's unbreakable

I'll never let it go  
One thing some people can't see at all  
It's unbreakable  
I'm so emotional  
Cause I know you'll catch me if I ever fall

It's unbreakable, uh-oh  
It's unbreakable, uh-oh  
It's unbreakable, uh-oh  
It's unbreakable, uh-oh  
I'm never gonna let you go

This how love is supposed to be together  
Still together after our 10th anniversary  
It's forever and how long you say about me  
Here's how the story ends  
Happily ever after  
Here's how the story ends  
Happily ever after
