

Escape The Hurt

Typecast

Impossible to match
I'll try to be calm
Blood stain screams out your name
I try hard to take it off

The moment is haunting me
So I sleep and escape the hurt
Please try to be yourself
I'll try hard to be myself

Tell me where it hurts, show me
I will take your pain and put it with my own
I'm losing my worthless breath, heal me
I'm not strong like you

Heal me now
Heal me now
Heal me now
Heal me now

Tell me where it hurts, show me
I will take your pain and put it with my own
I'm losing my worthless breath, heal me
I'm not strong like you

Tell me where it hurts, show me
I will take your pain and put it with my own
I'm losing my worthless breath, heal me
I'm not strong like you
