

## The Conflict

Typecast

They push us further  
Away from this  
Far away from reason  
This have got to end

They tire our hearts  
Bending us as hard as they can  
We will survive  
As long as we stand together

This darkest moment  
The light deprives the sun  
Their fangs will shatter  
In the end we are the ones who'll be left strong

They tire our hearts  
Bending us as hard as they can  
We will survive  
As long as we stand together

Strike us with everything you've got  
Strip us of everything we hold  
Strike us with everything you've got  
Strip us of everything we hold

Their fangs will shatter  
In the end we are the ones  
Their fangs will shatter  
In the end we are the ones

We are the ones
