

## Lullaby

## Typhoon

Hush my darling let your head down  
Sleep will finally come tonight  
Where we lay beneath the world's end  
Take my hand and take my life

And ghost we'll walk among the ruins  
Of cities where we used to live  
Broken glass and burning buildings  
Will pave to shallow sewers

You can close your eyes  
You can close your eyes  
I won't close mine
