I

I am anger Under pressure Lost it cages A prisoner The first to escape I am wicked I am legion Strength in numbers A lie The number is one I - I - I Everything that I see is for me Yes, I am giant I'm a monster Breaking windows In houses Buildings of glass Rebel rebel Holy outlaw Ride together Don't try it The power's in one I - I - I I am standing alone But I can rock you I - I - I On the edge of the blade But the knife can't cut the hero down I am virgin I'm a whore Giving nothing The taker The maker of war I'll smash your face in But with a smile All together You'll never Be stronger than me I - I - I Right here on my own But I still rock you I - I - I Don't follow behind Just leave me on the outside I - I - I I am standing alone But I can shock you I - I - I On the edge of the blade But no one makes the hero bleed (No, no , no) I am hunger Feed my head All together You'll never Never make the hero bleed Tištěno z pisnicky-akordy.cz
