

When Was It Over

Tyrese

Sitting here fucked up
Head in my hands
Trying to figure out a reason
You left me hurting like this (girl I'm confused)
Oh

Tell me what did I do?
What did I miss? (Oh)

I came home to
See that you packed
Up everything you owned (everything you owned)
Now I'm only asking questions
I need to know

When was it over? (When was it over?)
When was it over? (For you)
Oh, when was it over? (When was it over?)
When was it over? (Oh)
Oh

I'm just saying
You ain't seen one half (one half)
When we was on all them trips (oh, no)
You ain't seen one happy
When I bought you all them gifts (uh)

I, feel like you've been planning this for years
You were gone
Before you were long gone
So selfish for the sheer...

I came home to
See that you packed
Up everything you owned (everything you owned)
Now I'm only asking questions
I need to know

When was it over? (When was it over?)
When was it over? (For you)
When was it over? (When was it over?)
When was it over to you, girl? (Oh, girl)

When did your heart leave?
Can you tell me, please, baby? (Yeah)

Oh, oh

So confused, baby

They say it's never
When they file for divorce
Something went off in your mind
Light switch, but off, baby

What did I say?
What did I do, to you?

That made you say
This madness was over

Oh, over
Over, over
Over, over

When was it over?
