

When We Make Love

Tyrese

Love the way you're looking from down here
Come a little bit closer, babe, let me feel it
Your body feels so soft against my skin
There's nothing left to do but let me in it

Once I get you in my bed
Girl, you wanna run and tell all your friends
'Cause I'm about to give you bragging rights
To everything we did last night

I like the way you bite your lip when I--
When I hit that spot
Scratches on my back, they're showing what it is right now
And I don't want it to stop

When we make love
When we make love

Every move you make--it feels so right
I don't ever want it to end, baby
How bout we make it last all night,
You can be my forever lady

Girl, you going crazy, screaming my name right now
'Cause I'm hitting that spot
Bed is shaking, knees is grazing, you know what it is right now
And I don't want it to stop

When we make love
Tonight let's wake up the neighbors, baby
When we make love

Girl, I wanna give you all of me
So don't hold back, just let yourself go
Let your love rain down on me
Feeling so good I have you begging for more

When we make love
Girl, when you scream my name
It let's me know,
It let's me know I'm doing my thing
When we make love
I don't wanna hold back, baby,
I don't wanna hold back, baby, no
When we make love
Let your body on mine
When we make love

Why your legs all up in the air like that?
I ain't complaining 'cause I like 'em up there like that
