

# Alive

Tyrone Wells

Welcome to existence, blink and then you miss it  
Welcome to the thrill and the scars and the wishing  
Conversations in the kitchen  
Are you with me, are you listening  
Hold on for the ride, yeah, we're going the distance

And now every day you're waking up  
Like your coming up for air  
Searching for a place to be  
But you're already there

You're alive  
Yeah, all of the doors are wide open  
You've arrived  
You've got all of your life in a moment  
If your heart's still breaking  
You know you made it  
It's all of the lows and the highs  
You're alive, you're alive

Take it back to the basics  
Couple kids in the basement  
Chasing down a dream that's so close you could taste it  
When everything was honest  
It's right there if you want it  
Packing up your car you moved on and forgot it

And I know it feels so far away  
When you loved without a care  
Longing for those golden days  
But you're already there

You're alive  
Yeah, all of the doors are wide open  
You've arrived  
You've got all of your life in a moment  
If your heart's still breaking  
You know you made it  
It's all of the lows and the highs  
You're alive, you're alive

Every end is only a start  
Every end is only a start  
Every end is only a start  
Only a start, only a start  
Time after time we all start again  
We all start again  
Every end is only a start  
Every end is only a start  
Every end is only a start  
It's only the start, it's only the start

You're alive  
Yeah, all of the doors are wide open  
You've arrived  
You've got all of your life in a moment  
If your heart's still breaking

You know you made it  
It's all of the lows and the highs  
You're alive, you're alive  
You're alive, you're alive
