

## Into the Void

Tysondog

You let your guard down  
Now your world turns inside out  
That monkey on your back  
Reminds you of what you can't live without

She gets inside your head  
And crawls beneath your skin  
You think you're in control  
You're entering a game you'll never win

Into the void into the void  
Into the void into the void

You try to fight it  
You grow weaker by the day  
Can't eat can't sleep can't think  
You wouldn't have it any other way

Don't waste your time now  
Chasing shadows in the dark  
That's just the way it is  
It always was and always will be

Into the void into the void  
Into the void into the void
