

Parasite

Tysondog

I won't be your whipping boy I'm done with all your lies
Don't question my integrity I see through your disguise
Save your propaganda life's too short and words come cheap
And spare me the hypocrisy cos you sicken me
With the company you keep

Parasite Parasite
These demons try to hide me
Somewhere dark where you can't find me
Paradise Sacrificed
Grant me the strength to leave
Or show me something to believe in

I won't be your dirty little secret any more
There's no escaping fate when she comes knocking at your door
So I'll walk away and take the blame
Cos I don't need your world of pain
I've had enough and that's a fact
I'm leaving here and I'm never coming back

Parasite Parasite
These demons try to hide me
Somewhere dark where you can't find me
Paradise Sacrificed
Grant me the strength to leave
Or show me something to believe in
