Losing sleep

Losing sleep

Losing sleep

Losing sleep

Staying in my room

This feeling is vivid on a sleepless night

Yeah, I know what I want

Mm

Sensitive sense

The face that emerged between the shimmering moonlight

Baby, oh, it's you

Then my heart is on fire, fire

Sí, I know you bad for me

But why are you doing this?

I keep wanting and wanting

This craving for you

I've been losing sleep over you

I've been losing sleep over you

I only think of you again

I can't sleep

Losing sleep over you

I've been losing sleep over you

White long chestnuts

Yeah, I need you by my side

I can't bear it anymore

The flame spreads through the growing thirst

Call your name

Mm

Yeah, I can't stop

All night, all night, yeah, I think of you

Even if I close my eyes for a moment, I dream of you

I'ma dream of you, oh

All of your A to Z

Sweet toxic to me

No one but you

Put this feeling to rest

I've been losing sleep over you

I've been losing sleep over you

I only think of you again

I can't sleep

Losing sleep over you

I've been losing sleep over you

White long chestnuts

Yeah, I need you by my side

Sí, I know you bad for me

But why are you doing this?

I keep wanting and wanting

This craving for you

Mm, now

I've been losing sleep over you (Over you)  
I've been losing sleep over you  
You wake me up  
I can't sleep (I can't sleep)  
Losing sleep over you (Over you)  
I've been losing sleep over you (Oh, yeah, yeah, yeah)  
The long, white night (this night)  
Yeah, I need you by my side (Side, yeah)
